

# **Programme**

---

2009 Annual Meeting of the Mammalogical Society of Japan at Taipei

Date: 21–24 November 2009

## **Nov. 22: International Conference Hall**

### **Japan and Taiwan Cooperative Symposium 1**

**15:00–18:15 Japan and Taiwan Cooperative Symposium 1  
Current status and challenge of mammal management in East Asia  
—Consensus building and cooperation with local residents—**

“Introduction: Challenge of mammal management in East Asia”

Koji Yamazaki (Ibaraki Nature Museum)

“Consensus building with local resident for the reintroduction project of Asiatic black bear (*Ursus thibetanus ussuricus*) in South Korea”

Dong Hyuk, Jeong & Bae Keun, Lee (Species Restoration Center, Korea National Park Service)

“A key on wildlife management: the aboriginal people in Taiwan”

Wang Ying (Taiwan Normal University)

“Wildlife management with cooperation of local people, village, administration in Hyogo Prefecture”

Mayumi Yokoyama (University of Hyogo)

“Wildlife conservation in cooperation with local communities neighboring a National Park in Kenya”

Hiroshi Imae (Hokkaido University)

Commentators: Koichi Kaji, Hwang Mei-Hsiu

## **Nov. 23: International Conference Hall**

### **Members' Meeting / The Mammalogical Society Prize Lecture / Japan and Taiwan Cooperative Symposium 2**

**11:00–12:30 Members' Meeting**

**13:30–14:15 The Mammalogical Society Prize Lecture**

Kazuo Moriwaki (RIKEN BioResource Center)

**14:30–17:45 Japan and Taiwan Cooperative Symposium 2**

**Zoogeography of Mammals in East Asia—Understanding the Island Fauna**

Introduction “Island mammal fauna in East Asia”

Masaharu Motokawa (The Kyoto University Museum, Japan)

“Zoogeography of small mammals in Taiwan”

Hon-Tsen Yu (Institute of Zoology and Department of Life Science, National Taiwan University, Taiwan)

“Phylogeography of giant flying squirrels: evolutionary history of arboreal small mammals in Asia’s forests”

Tatsuo Oshida (Obihiro University of Agriculture and Veterinary Medicine)

“Pleistocene mammalian fossils in Taiwan”

Chun-Hsiang Chang (Department of Geology, National Museum of Natural Science, Taiwan)

“Molecular phylogeography on carnivores of Japan and Taiwan”

Ryuichi Masuda (Faculty of Science, Hokkaido University, Japan)

## Nov. 23: Leader Hotel

## Beer Party

18:30–20:30 **Beer Party for Participants from Japan and Taiwan**

## Workshops

### F22-1 **Taxonomic reviews of Taiwanese Insectivora**

Shin-Ichiro Kawada (Dept. Zool, Natl. Mus. Nat. Sci), Masatoshi Yasuda (FFPRI-Kyushu)

Nov. 22 10:30–12:30 Room C-01

### F22-2 **Convention on Biological Diversity and Conservation of Mammals in Urba**

Akiko Hasegawa (Nagoya Univ, Agr), Junji Moribe (Nagoya Univ, Agr)

Nov. 22 10:30–12:30 Room C-02

### F22-3 **Population Control of Japanese Macaques**

Watanabe Kunio, Enari Hiroto (Primate Res. Inst., Kyoto Univ.), Tokida Kunihiko (Japan Wildlife Res. Center)

Nov. 22 12:45–14:45 Room C-01

### F22-4 **Recent cetology studies in Taiwan and Japan**

Tadasu K. Yamada (National Museum of Nature and Science), Lien-Siang Chou (National Taiwan University)

Nov. 22 12:45–14:45 Room C-02

### F23-1 **Foods of mammals, 2. Comparisons of two animals at two places**

Seiki Takatsuki, Takafumi Tatewaki (Laboratory of Wildlife Ecology and Conservation, Azabu University)

Nov. 23 9:00–11:00 Room C-01

### F23-2 **Drive monkeys away!! —The present situation of driving monkeys away to reduce crop damage in Japan—**

Kei Shirai (Wildlife Management Office, Inc.), Misao Okano (Wildlife Management Office Inc.),

Seino Hironori (Wildlife Management Office, Inc.), Mami Saeki (Wildlife Management Office, Inc.),

Takeharu Uno (Miyagi Monkey and Mammal Management Center), Yutaka Yoshida (Yamanashi Institute of Environmental Sciences)

Nov. 23 9:00–11:00 Room C-02

### F24-1 **Diet and morphological evolution in mammals**

Masakazu Asahara (Kyoto Univ.)

Nov. 24 9:00–11:00 Room C-01

### F24-2 **Approaches for bear species population monitoring in Japan**

Tsutomu Mano (Hokkaido-IES), Yoshikazu Sato (Nihon Univ.)

Nov. 24 12:30–14:30 International Conference Hall

### F24-3 **The latest chapters of the carnivore research techniques manual: Where next?**

Yayoi Kaneko (Tokyo University of Agriculture and Technology), Yuko Fukue (Wildlife Community Institute)

Nov. 24 12:30–14:30 Room A-03

### F24-4 **Morphology, now 14**

Hideki Endo. (Univ. Museum, Univ. Tokyo)

Nov. 24 12:30–14:30 Room C-01

## Nov. 22: International Conference Hall

## Oral presentations

- 11:00 22国-1 Analysis of activity rhythm of the nutria using acceleration data-logger  
Shinichi Watanabe  
Fukuyama Univ.
- 11:15 22国-2 New detection method for some murids with feeding sign from sunflower seeds  
\*Reiko Ishiwaka, Yasuhisa Masuda  
Univ. Kyushu, Fac. Agriculture
- 11:30 22国-3 Population dynamics and demographic parameters of sika deer population under heavy hunting pressures in the northern part of Japan  
\*Shingo Miura<sup>1</sup>, Shin-Ichi Horino<sup>2</sup>, Toru Oi<sup>2</sup>, Seiki Takatsuki<sup>3</sup>, Teruki Oka<sup>2</sup>, Takashi Yamauchi<sup>4</sup>  
Waseda Univ.<sup>1</sup>, Forest Res. Institute<sup>2</sup>, Azabu Univ.<sup>3</sup>, Res. Institute Environ. Sci. Iwate<sup>4</sup>
- 11:45 22国-4 Estimation of the spatial-temporal population dynamics of sika deer by multi indexes of the density using state-space models  
\*Yasutaka Kishimoto<sup>1</sup>, Daisuke Fujiki<sup>1,2</sup>, Hiroshi Sakata<sup>1,2</sup>  
Wildlife Management Research Center, Hyogo<sup>1</sup>, Univ. Hyogo<sup>2</sup>
- 13:30 22国-6 Sleep disturbance in Japanese monkey by Sika deer —Deer eat feces of monkey in the night—  
\*Mari Nishikawa, Koji Mochida  
Univ. Kyoto
- 13:45 22国-7 The status of sika deer management in the Nishiokoppe Special Hunting Area  
\*Hiromasa Igota<sup>1</sup>, Yukiko Matsuura<sup>2</sup>, Masatsugu Suzuki<sup>3</sup>  
Rakuno Gakuen Univ.<sup>1</sup>, Hokkaido Univ.<sup>2</sup>, Gifu Univ.<sup>3</sup>
- 14:00 22国-8 Post crash behavior of two contrasting sika deer population: population limitation and regulation  
\*Koichi Kaji<sup>1</sup>, Yuko Yamamoto<sup>2</sup>, Hiroshi Takahashi<sup>3</sup>, Masami Miyaki<sup>4</sup>  
Tokyo Univ. of Agri. & Tec.<sup>1,2</sup>, FFPRI Kansai branch<sup>3</sup>, Rakuno Univ.<sup>4</sup>
- 14:15 22国-9 Sika Deer Conservation of Yakushima & Kuchinoerabujima Is. based on Civic Research Activities  
\*Shiro Tatsuzawa<sup>1</sup>, Takashi Kawamura<sup>2</sup>, Kenshi Tezuka<sup>3</sup>, Yoichi Arata<sup>3</sup>, Katsuya Kawasaki<sup>4</sup>  
Hokkaido Univ.<sup>1</sup>, Yakushima Seibusu-bu<sup>2</sup>, YOCA<sup>3</sup>, Yakushima-cho<sup>4</sup>

## Nov. 22: Room A-03

## Oral presentations

- 11:00 22A-1 The status of the Japanese black bear suggested by the mitochondrial DNA and the MHC gene analyses  
\*Yoshiki Yasukochi<sup>1</sup>, Shin Nishida<sup>1</sup>, Toshifumi Kurosaki<sup>2</sup>, Masaaki Yoneda<sup>2</sup>, Hiroko Koike<sup>1</sup>  
Univ. Kyushu<sup>1</sup>, JWRC<sup>2</sup>
- 11:15 22A-2 Carbon, nitrogen, and oxygen isotopic compositions of bone collagen and tooth enamel carbonate of the sea otter *Enhydra lutris* from archaeological sites at Adak Island, Aleutian Archipelago  
Ame Garong<sup>1</sup>, Chizuru Takashima<sup>2</sup>, Shin Nishida<sup>1</sup>, Akihiro Kano<sup>1</sup>, \*Hiroko Koike<sup>1</sup>  
Kyushu University<sup>1</sup>, Saga University<sup>2</sup>
- 11:30 22A-3 Localization of translocated Y chromosome region in small Indian mongoose  
\*Asato Kuroiwa<sup>1,4</sup>, Fumihiito Sawaya<sup>1</sup>, Katsushi Nakata<sup>2</sup>, Fumio Yamada<sup>3</sup>, Shintaro Abe<sup>2</sup>,  
Chizuko Nishida<sup>4</sup>, Yoichi Matsuda<sup>5</sup>  
Grad. Sch. Life Sci., Hokkaido Univ.<sup>1</sup>, Min. Env.<sup>2</sup>, FFPRI.<sup>3</sup>, Grad. Sch. Sci., Hokkaido Univ.<sup>4</sup>,  
Grad. Sch. Life Agr., Nagoya Univ.<sup>5</sup>
- 11:45 22A-4 Conservation Genetics of the Japanese Marten (*Martes melampus*)  
\*Jun J. Sato<sup>1</sup>, Shumpei P. Yasuda<sup>2</sup>, Tetsuji Hosoda<sup>3</sup>  
Dept. Biotech., Fukuyama Univ.<sup>1</sup>, Dept. Microbiol., Hokkaido Univ.<sup>2</sup>, Wakayama Taikyu High School<sup>3</sup>
- 12:00 22A-5 The oldest colobine fossils in Southeast Asia  
\*Masanaru Takai<sup>1</sup>, Thaung-Htike<sup>2</sup>, Zin-Maung-Maung-Thein<sup>1</sup>, Naoko Egi<sup>1</sup>, Takeshi Nishimura<sup>1</sup>  
Primate Res. Inst., Kyoto Univ.<sup>1</sup>, Shwebo Univ. (Myanmar)<sup>2</sup>
- 13:30 22A-6 Variation of the number of the vertebrae in Lagomorpha  
\*Hayatoshi Hirata<sup>1</sup>, Shin-ichirou Kawada<sup>2</sup>, Osamu Hoson<sup>3</sup>, Yoshisa Mori<sup>1</sup>  
Teikyou Univ. Science & Technology<sup>1</sup>, National Museum of Nature and Science, Tokyo<sup>2</sup>,  
Nagoya Uni.<sup>3</sup>
- 13:45 22A-7 Relationship between the elbow joint angle and the skeletal morphology in inverted quadrupedalism  
\*Shin-ichi Fujiwara, Hideki Endo  
Univ. Museum, Univ. Tokyo
- 14:00 22A-8 Piglet's choices of teat position on wild pigs and primitive domestic pigs in Asia  
\*Yaetsu Kurosawa<sup>1</sup>, Kazue Tanaka<sup>2</sup>  
The Cattle Museum<sup>1</sup>, Tokyo Univ. of Agri.<sup>2</sup>
- 14:15 22A-9 Common characteristics of debarking and twig cutting by the rat, *Rattus rattus* complex  
\*Tatsuo Yabe<sup>1</sup>, Takuma Hashimoto<sup>2</sup>, George A. Rivera<sup>3</sup>  
Trop. Rat Contr. Comm.<sup>1</sup>, Japan Wildl. Res. Cent.<sup>2</sup>, Philip Wood<sup>3</sup>

## Nov. 23: International Conference Hall

## Oral presentations

- 9:00 23国-1 Effects of different frequency of deer foraging on herbaceous communities in open site  
\*Atushi Takayanagi<sup>1</sup>, Roku Goda<sup>2</sup>  
Kyoto Univ.<sup>1</sup>, Asahi Shimbun Co.<sup>2</sup>
- 9:15 23国-2 Studies on the ecology and roosting behavior of Ussuri tube-nosed bat, *Murina ussuricensis*, based on the use of dead-leaf *Mallotus japonicus* traps  
\*Kimitake Funakoshi<sup>1</sup>, Kenta Nagaoka<sup>1</sup>, Kouhei Takeyama<sup>1</sup>, Madoka Indou<sup>2</sup>  
Int. Univ. of Kagoshima<sup>1</sup>, Kagoshima Univ.<sup>2</sup>
- 9:30 23国-3 Population parameter estimates for Japanese Northern Bat *Eptesicus japonensis*, on Norikura Highland in Nagano Prefecture  
Terumasa Yamamoto  
Gifu Prefectural Tokikoryo High School
- 9:45 23国-4 Damage control of Japanese Pipistrelle  
Nobusuke Nishi
- 10:00 23国-5 The study of life history of *Glirulus japonicus* using nest boxes  
\*Shusaku Minato<sup>1,2</sup>, Manami Iwabuchi<sup>1,2</sup>, Aiba Haruka<sup>1,2</sup>, Chise Minato<sup>2</sup>  
Dormouse Museum<sup>1</sup>, The Japanese Dormouse Preservation & Research Group<sup>2</sup>
- 10:15 23国-6 Food habits of Japanese marten in suburban areas  
Kyoko Sakakida  
Ryukoku Univ.

## Nov. 23: Room A-03

## Oral presentations

- 9:00 23A-1 Adaptive deer management model in Yakushima Island  
\*Hiroyuki Matsuada<sup>1</sup>, Aomi Ohta<sup>2</sup>  
Yokohama National University<sup>1</sup>, Fuefuki-shi<sup>2</sup>
- 9:15 23A-2 Autumn food habits and movements of Asiatic black bears in Toyama prefecture  
\*Isao Arimoto<sup>1</sup>, Yusuke Goto<sup>2</sup>, Chika Nagai<sup>1</sup>, Kengo Furubayashi<sup>3</sup>  
Tokyo Univ. of Agri. and Tech.<sup>1</sup>, Tateyama Caldera Sabo Museum<sup>2</sup>, Ptarmigan protection study group<sup>3</sup>
- 9:30 23A-3 Improvement of the harvest based estimation of a brown bears population by applying an independent estimation  
\*Tsutomu Mano<sup>1</sup>, Hiroyuki Matsuda<sup>2</sup>, Shosuke Natsume<sup>1</sup>, Hifumi Tsuruga<sup>1</sup>  
Hokkaido-IES<sup>1</sup>, Yokohama National Univ.<sup>2</sup>
- 9:45 23A-4 Sizes and shapes of gaps large enough for masked palm civets (*Paguma larvata*) to enter—Effect of optical factors—  
\*Chihiro Kase<sup>1</sup>, Yusuke Eguchi<sup>2</sup>, Masuo Furuya<sup>3</sup>, Katsuji Uetake<sup>1</sup>, Toshio Tanaka<sup>1</sup>  
Grad sch vet sci, Azabu Univ<sup>1</sup>, WeNARC<sup>2</sup>, Saitama AFRC.<sup>3</sup>
- 10:00 23A-5 Characteristics of carbon and nitrogen stable isotope ratios of the Japanese macaque hairs  
\*Toru Oi<sup>1</sup>, Hironori Seino<sup>2</sup>, Shin'ichiro Hamazaki<sup>2</sup>  
FFPRI<sup>1</sup>, WMO<sup>2</sup>
- 10:15 23A-6 Population dynamics of hybrid monkeys between two Sulawesi macaque species  
Watanabe Kunio  
Primate Res. Inst., Kyoto Univ.

## Nov. 24: International Conference Hall

## Oral presentations

- 10:00 24国-1 Sightability of aerial surveys for sika deer (*Cervus nippon*)  
\*Hiroyuki Uno<sup>1</sup>, Tosio Kurumada<sup>1</sup>, Yoshihiro Inatomi<sup>1</sup>, Katsumi Tamada<sup>1</sup>, Koichi Kaji<sup>2</sup>  
Hokkaido Inst. Environmental Sciences<sup>1</sup>, Tokyo Univ. Agriculture and Technology<sup>2</sup>
- 10:15 24国-2 Analysis of factors affecting rice crop damage by sika deer in a landscape context in the Boso Peninsula  
\*Mayura Takada<sup>1</sup>, Maki Suzuki<sup>2</sup>, Keiji Ochiai<sup>3</sup>, Masahiko Asada<sup>3</sup>, Tadashi Miyashita<sup>2</sup>  
Obihiro Univ.<sup>1</sup>, Univ. Tokyo<sup>2</sup>, Natural history Museum and Institute, Chiba<sup>3</sup>
- 10:30 24国-3 Invention of drop net for deer capture  
Yasuyuki Muroyama<sup>1,2</sup>, Akira Taguchi<sup>2</sup>, Sachiko Nakamura<sup>1,2</sup>, Yasutaka Kishimoto<sup>2</sup>, Masayoshi Nagamoto<sup>3</sup>, Tetsuya Matsumoto<sup>4</sup>, Youichi Kitagawa<sup>4</sup>, \*Yoshiki Morimitsu<sup>1,2</sup>  
University of Hyogo Wildlife Management Research Center, Hyogo<sup>1</sup>, Wildlife Management Research Center, Hyogo<sup>2</sup>, Machine Metallic Industrial Technology Support Center, Hyogo Pref.<sup>3</sup>, Hyogo Prefectural Institute of Technology<sup>4</sup>
- 10:45 24国-4 Recent status of Uotsuri-jima, Senkaku Island under the introduced goat problem  
\*Yasushi Yokohata<sup>1</sup>, Masatsugu Yokota<sup>2</sup>, Masami Kaneko<sup>3</sup>, Buho Hoshino<sup>3</sup>, Takashi Ono<sup>4</sup>, Mai Minamisawa<sup>4</sup>  
Grad. Sch. Sci. Eng., Univ. Toyama<sup>1</sup>, Fac. Sci., Univ. Ryukyu<sup>2</sup>, Fac. Env. Syst., Rakuno Gakuen Univ.<sup>3</sup>, EnVision<sup>4</sup>
- 11:00 24国-5 Designs to Remove the Effect from Body Heating on Temperature Sensor Built in the GPS Housing of GPS3300 Radio-Collar  
\*Zhaowen Jiang<sup>1</sup>, Seiki Takatsuki<sup>2</sup>, Masahiko Kitahara<sup>3</sup>, Mikio Sugita<sup>3</sup>  
WMO<sup>1</sup>, Azabu Univ.<sup>2</sup>, Yamanashi Inst. Envir. Sci.<sup>3</sup>
- 11:15 24国-6 Reduction of habitat and some characteristics of collected individuals of the endangered Okinawa spiny rat *Tokudaia muenninki*  
\*Fumio Yamada<sup>1</sup>, Norihiro Kawauchi<sup>2</sup>, Katsushi Nakata<sup>3</sup>, Yuji Miyake<sup>3</sup>, Sota Fukuchi<sup>3</sup>, Hiroshi Shichiri<sup>3</sup>, Sintaro Abe<sup>3</sup>, Nobuhiko Kotaka<sup>1</sup>, Atsushi Takashima<sup>4</sup>, Asato Kuroiwa<sup>5</sup>, Chie Murata<sup>5</sup>  
Forestry and Forest Products Res. Inst. (FFPRI)<sup>1</sup>, Islands Wildlife Lab.<sup>2</sup>, Naha Office of the Ministry of the Environment<sup>3</sup>, University of the Ryukyus<sup>4</sup>, Hokkaido University<sup>5</sup>
- 11:30 24国-7 Genetic background of four subspecies of the Japanese hare, *Lepus brachyrurus*, by mitochondrial and nuclear loci  
\*Mitsuo Nunome<sup>1</sup>, Harumi Torii<sup>2</sup>, Rikyu Matsuki<sup>3</sup>, Hitoshi Suzuki<sup>1</sup>  
Univ. Hokkaido<sup>1</sup>, Nara Univ. Education<sup>2</sup>, CRIEPI<sup>3</sup>

## Nov. 24: Room A-03

## Oral presentations

- 10:00 24A-1 Individual Identification of *Mustela itatsi*  
\*Takeshi Sekiguchi<sup>1</sup>, Hiroshi Sasaki<sup>2</sup>, Yoshiko Kurihara<sup>1</sup>, Fumiko Sekiguchi<sup>1</sup>, Shigeki Watanabe<sup>3</sup>, Daigo Moriyama<sup>4</sup>, Naoko Kurose<sup>5</sup>, Rikyu Matsuki<sup>6</sup>, Midori Saeki<sup>7</sup>, Koji Yamazaki<sup>8</sup>  
Kyushu University<sup>1</sup>, Chikushi Jogakuen Univ., Jr. College<sup>2</sup>, Seian Univ. of Art and Design<sup>3</sup>, Kokusai Kogyo Co., Ltd<sup>4</sup>, Fac. Sci., Kanagawa Univ.<sup>5</sup>, Central Research Institute of Electric Power Industry<sup>6</sup>, National Agriculture and Food Research Organization<sup>7</sup>, Ibaraki Nature Museum<sup>8</sup>
- 10:15 24A-2 Distribution and food habits of Japanese weasels *Mustela itatsi* at Gokayama in Seburi Mountains, Fukuoka  
\*Hiroshi Sasaki<sup>1</sup>, Takeshi Sekiguchi<sup>2</sup>, Shigeki Watanabe<sup>3</sup>, Yoshiko Kurihara<sup>2</sup>, Fumiko Sekiguchi<sup>2</sup>, Daigo Moriyama<sup>4</sup>, Naoko Kurose<sup>5</sup>, Rikyu Matsuki<sup>6</sup>, Midori Saeki<sup>7</sup>, Koji Yamazaki<sup>8</sup>  
Chikushi Jogakuen Univ., Jr. College<sup>1</sup>, Fac. Med., Kyushu Univ.<sup>2</sup>, Seian Univ. of Art and Design, Seian Univ. of Art and Design<sup>3</sup>, Kokusai Kogyo Co., LTD<sup>4</sup>, Fac. Sci., Kanagawa Univ.<sup>5</sup>, CRIEPI<sup>6</sup>, NARC<sup>7</sup>, Ibaraki Nature Museum<sup>8</sup>
- 10:30 24A-3 The Effects of the Fence on the Prevention of Activities by Introduced Mongoose (Class Mammalia)  
\*Yasuo Iijima<sup>1</sup>, Norihiro Kawauchi<sup>2</sup>, Katsuhiro Yamashita<sup>2</sup>, Natsuki Kosaka<sup>2</sup>, Mio Kobayasi<sup>2</sup>, Satoru Morita<sup>2</sup>  
Yachiyo Engineering Co., Ltd Kyusu Branch office<sup>1</sup>, Yachiyo Engineering Co., Ltd Okinawa office<sup>2</sup>
- 10:45 24A-4 Effects of high deer density on raccoon dog food resources in Oku-Nikko, Japan  
\*Yoshikazu Seki<sup>1</sup>, Masaaki Koganezawa<sup>2</sup>  
Tokyo Univ. Agri. Tech<sup>1</sup>, Utsunomiya Univ. Forest.<sup>2</sup>
- 11:00 24A-5 Acoustic behavior of short-finned pilot whales off northern Okinawa Island  
\*Fumio Nakahara<sup>1</sup>, Naoto Higashi<sup>2</sup>, Haruna Okabe<sup>3</sup>, Hirotoshi Emoto<sup>4</sup>, Senzo Uchida<sup>5</sup>  
Tokiwa Univ<sup>1</sup>, Ocean Expo. Commemorative Park Management Foundation<sup>2</sup>, General Research Center, Ocean Expo. Commemorative Park Management Foundation<sup>3</sup>, System Intech<sup>4</sup>, Okinawa Churaumi Aquarium<sup>5</sup>
- 11:15 24A-6 Historical distribution changes of the 26 mammal species in Sumatra and its implication for conservation  
\*Rizaldi<sup>1,2</sup>, S. N. Kamilah<sup>2</sup>, A. Bakar<sup>2</sup>, M. Mitani<sup>3</sup>, K. Watanabe<sup>1</sup>  
Primate Res., Inst., Kyoto Univ.<sup>1</sup>, Dep. Biology, Fac. Sciences, Andalas Univ.<sup>2</sup>, Hyogo Pref. Univ.<sup>3</sup>

- \* P-1 Preliminary study on Anal Tonsil in Cetaceans  
\*Yuko Tajima, Manami Makara, Tadasu K. Yamada  
National Museum of Nature and Science
- \* P-2 Osteological comparison in spinal column between *Tursiops truncatus* and *T. aduncus*  
\*Nozomi Kurihara, Tadasu K. Yamada  
Natl. Mus. Nat. Sci
- \* P-3 The preliminary research of the ontogenetic difference between two subspecies of the West Indian manatee  
\*Osamu Hoson<sup>1</sup>, Shin-ichiro Kawada<sup>2</sup>, Tadasu K. Yamada<sup>2</sup>, Sen-ichi Oda<sup>1</sup>  
Grad. Sch. Bio. Agr. Sci., Nagoya Univ.<sup>1</sup>, Department of Zoology, National Museum of Nature and Science<sup>2</sup>
- \* P-4 Hair ultrastructure of Hippotraginae utilizing stuffed specimens  
\*Manami Makara, Shinichiro Kawada, Tadasu K. Yamada  
National Museum of Nature and Science
- \* P-5 Geometric morphometric study of the skull of Japanese serows (*Capricornis crispus*) in Shizuoka prefecture  
Hiroshi Fukunaga  
Department of Zoology, Kyoto Univ
- \* P-6 Morphometrical observation of the skull of Korean water deer, *Hydropotes inermis argyropus*  
\*Yungkun Kim<sup>1</sup>, Ki-jeong Na<sup>2</sup>, Young-jun Kim<sup>3</sup>, Hang Lee<sup>3</sup>, Junpei Kimura<sup>1</sup>  
Laboratory of Veterinary Anatomy, College of Veterinary Medicine, Seoul National Univ., Seoul, Korea<sup>1</sup>, College of Veterinary Medicine, Chungbuk National Univ., Cheongju, Korea<sup>2</sup>, Conservation Genome Resource Bank for Korean Wildlife, College of Veterinary Medicine, Seoul National Univ., Seoul, Korea<sup>3</sup>
- \* P-7 Eruption sequence and eruption times of the teeth in Patas monkey  
Yu Okuda  
Okayama Univ. Sci
- P-8 The Studies of Cheetah's Run  
\*Naomi Wada<sup>1</sup>, Megumi Goto<sup>1</sup>, Yusuke Ikebe<sup>2</sup>, Azusa Satou<sup>2</sup>, Satoshi Une<sup>3</sup>, Mutsumi Kawata<sup>3</sup>  
The United Graduate School of Veterinary Science, Yamaguchi University<sup>1</sup>, Akiyoshida Wild Animal Park<sup>2</sup>, Osaka Veterinary Referral Center<sup>3</sup>
- P-9 Comparison of feeding ecology and skull morphology between two subspecies of the leopard cat, Iriomote cat *Prionailurus bengalensis* and Tsushima leopard cat *P. b. euptilura* in Japan  
\*Nozomi Nakanishi, Masako Izawa  
Ryukyu Univ
- \* P-10 Use of eye lens to estimate age in Small Indian mongoose  
\*Tomomi Kawano<sup>1,3</sup>, Katushi Nakata<sup>2</sup>, Koki Hirano<sup>1</sup>, Go Ogura<sup>1</sup>, Osamu Ishibashi<sup>1</sup>  
University of Ryukyus<sup>1</sup>, Ministry of Environment<sup>2</sup>, Kumamoto agriculture high school<sup>3</sup>

**Nov. 22–24**

**Poster presentation**

- \* P-11 Cranial geographic variation of the Japanese weasel detected by allometric analysis  
\*Satoshi Suzuki<sup>1</sup>, Masaharu Motokawa<sup>2</sup>  
Dept. Zoology, Grad. Sch. Sci., Kyoto Univ.<sup>1</sup>, Kyoto Univ. Museum<sup>2</sup>
- \* P-12 Age Determination of Coypu and Age Structure of Its Population in Aichi Prefecture, Japan  
\*Keiko Sone<sup>1</sup>, Kazuhiro Koyasu<sup>2</sup>, Shuji Kobayashi<sup>3</sup>, Sen-ichi Oda<sup>1</sup>  
Grad. Sch. Bio. Agr. Sci., Nagoya Univ.<sup>1</sup>, Sch. Dent., Aichi-Gakuin Univ.<sup>2</sup>, Fac. Sci., Okayama Univ. Sci.<sup>3</sup>
- \* P-13 Geographic variation of external and skull morphology of small Japanese field mouse,  
*Apodemus argenteus*  
\*Yuta Shintaku<sup>1</sup>, Masaharu Motokawa<sup>2</sup>  
Dep. Zool., Grad. Sch. Sci., Kyoto Univ.<sup>1</sup>, Kyoto Univ. Museum<sup>2</sup>
- \* P-14 Craniodental mechanics and orbit angles of two symetric callosciurine squirrels in Vietnam  
\*Daisuke B. Koyabu<sup>1</sup>, Akiko Hayashida<sup>2</sup>, Hideki Endo<sup>2</sup>  
Grad. Sci., Univ. Tokyo/JSPS<sup>1</sup>, Univ. Museum, Univ. Tokyo<sup>2</sup>
- P-15 Foramen magnum angle and its effect on visual field in two *Apodemus* murids  
\*Kazuhiko Satoh, Yasutoku Kogaya, Kin-ya Kubo, Sadakazu Ejiri  
Dept. Oral Anat., Asahi Univ. Sch. Dent
- P-16 A morphological comparison between *Apodemus semotus* in Taiwan and *A. draco* in China  
Yukibumi Kaneko  
502-4,Takayacho, Sakaide, Kagawa, 762-0017, Japan
- P-17 Kinematic studies of mole's locomotion  
\*Megumi Goto, Naomi Wada  
The United Graduate School of Veterinary Science, Yamaguchi University
- \* P-18 A relationship between variations of tail width and histological differences in the greater  
Japanese shrew-mole  
\*Koichiro Shirai, Masahiro A. Iwasa  
Grad. Sch. Bioresour. Sci., Nihon Univ
- P-19 Macroscopic and three-dimensional CT image examinations of the mastication system in the  
giant anteater  
\*Hideki Endo<sup>1</sup>, Shin-Ichiro Kawada<sup>2</sup>, Teruyuki Komiya<sup>3</sup>, Hiroshi Koie<sup>4</sup>  
Univ. Museum, Univ. Tokyo<sup>1</sup>, Dept. Zool., Natl. Mus. Nat. Sci.<sup>2</sup>, Ueno Zool. Gardens<sup>3</sup>, Dep. Vet. Int.  
Med, Nihon Univ.<sup>4</sup>
- P-20 Population genetic structure of Asian blackbear at local scale in Yamagata, northern Japan  
\*Reina Uno<sup>1</sup>, Naoki Ohnishi<sup>2</sup>, Hideo Higashi<sup>3</sup>, Hidetoshi B. Tamate<sup>4</sup>  
Institute of Advanced Biosciences<sup>1</sup>, Forestry and Forest Products Research Institute<sup>2</sup>, Yamagata Wildlife  
Association<sup>3</sup>, Yamagata Univ.<sup>4</sup>
- P-21 Population genetics analysis of a Japanese black bear population in Shimokita Peninsula  
\*Toshiaki Yamamoto<sup>1</sup>, Yuri Okumura<sup>1</sup>, Hirohisa Tanaka<sup>1</sup>, Nozomi Takatsudo<sup>1</sup>, Teruki Oka<sup>2</sup>  
Nippon Veterinary and Life Science University<sup>1</sup>, Forestry and Forest Products Research Institute<sup>2</sup>

- \* P-22 Monitoring of behavior and body temperature during hibernation in captive Asiatic black bear  
Takuro Yoshimoto<sup>1</sup>, \*Michito Shimozuru, Toshio Tsubota  
Hokkaido Univ
- \* P-23 Ancient DNA Analysis for the Sea Otter from Archaeological Sites on Adak, Aleutian Islands  
\*Shin Nishida<sup>1</sup>, Dixie West<sup>2</sup>, Susan Crockford<sup>3</sup>, Hiroko Koike<sup>1</sup>  
Kyushu Univ.<sup>1</sup>, University of Kansas<sup>2</sup>, Pacific Identifications Inc.<sup>3</sup>
- \* P-24 Phylogenetic history of mustelids in Taiwan inferred from mitochondrial DNA  
\*Tetsuji Hosoda<sup>1</sup>, Jun Sato<sup>2</sup>, Lian-Kong Lin<sup>3</sup>, Yen-Jean Chen<sup>4</sup>, Masashi Harada<sup>5</sup>, Masahiro Iwasa<sup>6</sup>,  
Hitoshi Suzuki<sup>7</sup>  
Taikyu H. S.<sup>1</sup>, Fukuyama Univ. Biotech.<sup>2</sup>, Tunghai Univ. Life Sci.<sup>3</sup>, Nat. Mus. Natl Sci.<sup>4</sup>, Osaka City  
Univ. Med.<sup>5</sup>, Nihon Univ. Biores. Sci.<sup>6</sup>, Hokkaido Univ. Earth Env. Sci.<sup>7</sup>
- \* P-25 Mitochondrial DNA analysis of Raccoons (*Procyon lotor*) in Kyoto, and Fukui Prefectures  
\*Yuji Oikawa<sup>1</sup>, Yuzo Takada<sup>2</sup>, Kazuki Niwa<sup>1</sup>  
Toho Univ.<sup>1</sup>, National Defense Medical College<sup>2</sup>
- \* P-26 Seasonal change of plucked hair sample type of Asiatic black bear (*Ursus thibetanus*) and

\*Hiroto Enari<sup>1</sup>, Haruka Sakamaki<sup>2</sup>  
PRI, Kyoto Univ.<sup>1</sup>, Iwate Univ.<sup>2</sup>
- \* P-84 Infant Development of Sichuan Golden Monkey (*Rhinopithecus roxellana*) in Nagoya Higashiyama Zoo  
\*Takushi Yokoyama<sup>1</sup>, Satoshi Kusuda<sup>2</sup>, Keiko Sone<sup>1</sup>, Osamu Hoson<sup>1</sup>, Junji Moribe<sup>1</sup>, Hideaki Takahashi<sup>3</sup>,  
Hirosi Kobayashi<sup>3</sup>, Sen-ichi Oda<sup>1</sup>  
Grad. Sch. Bio. Agr. Sci., Nagoya Univ.<sup>1</sup>, Fac. Appl. Biol. Sci., Gifu Univ.<sup>2</sup>, Nagoya Higashiyama Zoo<sup>3</sup>
- P-85 Vegetation management for improvement of Japanese macaque (*Macaca fuscata*) habitat in high proportion artificial forest area  
\*Akira Chijiwa<sup>1</sup>, Akisato Nishimura<sup>2</sup>  
LAGO CO., LTD<sup>1</sup>, Doshisha Univ.<sup>2</sup>
- \* P-86 Feeding habits of spotted seals during winter in Hokkaido  
\*Natsuki Watanabe<sup>1</sup>, Mari Kobayashi<sup>2</sup>  
Tokyo University of Agriculture and Technology<sup>1</sup>, Tokyo University of Agriculture<sup>2</sup>
- \* P-87 Topographical characteristics of the home range border of the Tsushima leopard cat *Prionailurus bengalensis euptilurus* on Tsushima Islands, Japan  
\*Ayumi Teranishi<sup>1</sup>, Masako Izawa<sup>1</sup>, Teruo Doi<sup>2</sup>, Daisuke Araki<sup>1</sup>  
University of the Ryukyus, Faculty of Science<sup>1</sup>, Fukuoka city<sup>2</sup>
- \* P-88 Effects by artificial habitat change on habitat utilization of the Tsushima leopard cat, *Prionailurus bengalensis euptilurus*, in Tsushima Islands, Japan  
\*Daisuke Araki, Ayumi Teranishi, Masako Izawa  
Univ. Ryukyus

**Nov. 22–24**

**Poster presentation**

- P-89 Artificial disturbance by the land development activity on the home range of the female Tsushima leopard cat, *Prionailurus bengalensis euptilurus*, on Tsushima Islands, Japan  
\*Dae-hyun Oh, Shusaku Moteki, Masako Izawa  
Laboratory of Ecology and Systematics, Faculty of Science, University of the Ryukyus
- \* P-90 Facility with electrical wire to prevent Masked Palm Civet damage in cherry farm  
\*Yumi Endo<sup>1</sup>, Masahiko Takeuchi<sup>2</sup>, Masuo Furuya<sup>3</sup>, Motokazu Ando<sup>4</sup>, Takeshi Yasue<sup>1</sup>, Yasuo Matsuzawa<sup>1</sup>  
Lab. Applied Anim. Etho., Ibaraki Univ.<sup>1</sup>, Wildl. Manage. Lab., Nat.Agric. Res. Org.<sup>2</sup>, Saitama Pref.  
Agric. Forest Res. Center<sup>3</sup>, Lab. of Wild Anim., Fac. Agric., Tokyo Univ. Agric.<sup>4</sup>
- P-92 Distribution and population structure of the alien species American mink *Neovison vison* in Nagano, Japan  
\*Yuko Fukue<sup>1</sup>, Emiko Ashida<sup>1</sup>, Miyuki Sato<sup>1</sup>, Ryosuke Kishimoto<sup>2</sup>  
Wildlife Community Institute<sup>1</sup>, Nagano Environmental Conservation Research Institute<sup>2</sup>
- \* P-93 Diet of the mink and the sable in the Kushiro Wetland, Hokkaido, Japan  
\*Tsuyoshi Takeshita<sup>1</sup>, Shirow Tatsuzawa<sup>1</sup>, Tohru Ikeda<sup>1</sup>, Yukari Shimatani<sup>2</sup>, Ryuichi Masuda<sup>2</sup>  
Graduate School of Letters, Hokkaido University<sup>1</sup>, Graduate School of Science, Hokkaido University<sup>2</sup>
- P-94 Food selection in Ezo red fox  
\*Akira Kondo, Saiko Siraki  
Faculty of Bioproduction, Tokyo University of Agriculture
- P-95 Distirbution and status of feral raccoon in Nagoya city, Japan  
\*Aruma Kawabata<sup>1</sup>, Takeshi Fujitani<sup>2</sup>, Keiko Sone<sup>1</sup>, Osamu Hoson<sup>1</sup>, Junji Moribe<sup>1</sup>, Sen-ichi Oda<sup>1</sup>  
Grad. Sch. Bio. Agr. Sci., Nagoya Univ.<sup>1</sup>, Nagoya Higashiyama Zoo<sup>2</sup>
- P-96 Current situation of invasive alien raccoons and challenges in the Shiretoko Peninsula  
\*Tohru Ikeda, Ken-ichiro Shimada  
Hokkaido Univ
- P-97 A trial of the Conservation of raccoon dog (*Nyctereutes procyonoides*) on Road construction with Environment-friendliness  
\*Akiko Hasegawa<sup>1,2</sup>, Sen-ichi Oda<sup>1</sup>, Toshio Tanaka<sup>2</sup>  
Nagoya Univ. Agr.<sup>1</sup>, Azabu Univ.<sup>2</sup>
- P-98 Possible effect of brown bear predation on sika deer newborn survival in the high density brown bear population area in Shiretoko Peninsula, Hokkaido  
\*Masami Yamanaka<sup>1</sup>, Kyouko Kobayashi<sup>2</sup>  
Shiretoko Nature Foundation<sup>1</sup>, Tokyo Univ. of Agricultural and Technology<sup>2</sup>
- P-99 Improvement of the long term monitoring method of mustelids on Shiretoko Peninsula  
\*Takahiro Murakami<sup>1</sup>, Hajime Nakagawa<sup>1</sup>, Masami Yamanaka<sup>2</sup>, Hideaki Okada<sup>3</sup>, Yasushi Masuda<sup>2</sup>  
Shiretoko Museum<sup>1</sup>, Shiretoko Nature Foundation<sup>2</sup>, Shari Town Office<sup>3</sup>

## P-100 Movement biology of spotted seals

\*Mari Kobayashi<sup>5</sup>, Yasuo Kouno<sup>2</sup>, Miyuki Ito<sup>3</sup>, Mio Kato<sup>1</sup>, Masahiro Kiuchi<sup>1</sup>, Mio Shibuya<sup>1</sup>, Yasuhiro Fujimoto<sup>4</sup>, Kikuo Kato<sup>5</sup>  
Tokyo univ. of Agr.<sup>1</sup>, Free investigator in Yagishiri<sup>2</sup>, Free investigator in Bakkai<sup>3</sup>, Hokkido Univ.<sup>4</sup>, Marine Wildlife Center of JAPAN<sup>5</sup>

\* P-101 Parameters affecting to inhabitation of *Ochotona hyperborea yesoensis* in low altitudinal areas

\*Asumi Ieiri, Shuhei Sato, Hisashi Yanagawa  
Obihiro Univ. of Agriculture and Veterinary Medicine, Lab. of Wildlife Ecology

\* P-102 Extranidal activities of *Ochotona hyperborea yesoensis* in the low altitudinal area

\*Shuhei Sato, Hisashi Yanagawa  
Obihiro Univ. of Agriculture and Veterinary Medicine, Lab. of Wildlife Ecology

## \* P-103 Detection of nest sites of Siberian flying squirrels by their feces under the cavity

\*Kei Suzuki<sup>1</sup>, Sayaka Mori<sup>2</sup>, Eriko Hayashi<sup>2</sup>, Hisashi Yanagawa<sup>1</sup>  
Obihiro Univ. of Agriculture and Veterinary Medicine Lab. of Wildlife Ecology<sup>1</sup>, Univ. of Tokyo Lab. of Biodiversity Science<sup>2</sup>

## \* P-104 Estimation of the Siberian flying squirrel population in Sakhalin fir-dominated mixed forest

\*Manami Suzuki<sup>1</sup>, Ami Kato<sup>1,2</sup>, Kazunobu Iguchi<sup>3</sup>, Takumi Okahira<sup>3</sup>, Masaki Matsui<sup>3</sup>, Tatsuo Oshida<sup>1</sup>, Yoshihiro Hayashi<sup>4</sup>  
Obihiro Univ. of Agriculture and Veterinary Medicine<sup>1</sup>, Kiyosato Educational Experiment Project<sup>2</sup>, University Forest in Hokkaido, The University of Tokyo<sup>3</sup>, Graduate School of Agriculture and Life Sciences, The University of Tokyo<sup>4</sup>

## \* P-105 Preliminary report on the communal nesting of the Siberian flying squirrel

\*Yushin Asari<sup>1</sup>, Hisashi Yanagawa<sup>2</sup>  
Chodai Co., Ltd.<sup>1</sup>, Obihiro Univ.<sup>2</sup>

\* P-106 Habitat characteristics of Japanese field vole (*Microtus montebelli*) in Siga Prefecture

\*Yoshihiro Matsuura<sup>1</sup>, Atsushi Takayanagi<sup>1</sup>, Shozo Shibata<sup>2</sup>  
Grad. Agr., Kyoto Univ.<sup>1</sup>, FSERC., Kyoto Univ.<sup>2</sup>

P-108 Homerange of *Glirulus japonicus* in Summer

\*Haruka Aiba<sup>1,2</sup>, Manami Iwabuchi<sup>1,2</sup>, Shusaku Minato<sup>1,2</sup>  
Keep Japanese Dormice Museum<sup>1</sup>, The Japanese Dormice Preservation & Research Group<sup>2</sup>

## P-109 Selection condition of hibernation and daily torpor place in Japanese dormouse

\*Yumena Nakamura<sup>1</sup>, Nobuaki Kojo<sup>1</sup>, Hidetoshi Tamate<sup>2</sup>  
Science and engineering of Univ. Yamagata<sup>1</sup>, Univ. Yamagata<sup>2</sup>

\* P-110 Hibernaculum of Japanese dormouse, *Glirulus japonicus*

\*Manami Iwabuchi<sup>1,2</sup>, Haruka Aiba<sup>1</sup>, Tetsuo Morita<sup>2</sup>, Shusaku Minato<sup>1</sup>  
KEEP Dormouse museum<sup>1</sup>, Miyazaki Univ.<sup>2</sup>

- \* P-111 Effects of different soil environments on distribution pattern of three *Sorex* species  
\*Yuichirou Nojima, Kiyosi Tsutsuki, Tatsuo Oshida  
Obihiro Univ
- P-112 Behaviors of Common Tenrec and Greater Hedgehog Tenrec in lactation period  
Ryo Ito  
Kyoto Univ
- \* P-113 Seasonal changes in mode of subterranean utilization by large Japanese mole  
\*Atsushi Kashimura<sup>1</sup>, Kunihito Moteki<sup>2</sup>, Akio Shinohara<sup>3</sup>, Kimiyuki Tsushiya<sup>4</sup>, Toshihito Takahashi<sup>5</sup>,  
Tetsuo Morita<sup>5</sup>  
Grad. Sch. Agric. Engineer., Univ. Miyazaki<sup>1</sup>, Grad. Sch. Agric. Univ. Miyazaki<sup>2</sup>, Frontier Sci. Res. Ctr.,  
Univ. Miyazaki<sup>3</sup>, Applied Biology, Co., Ltd.<sup>4</sup>, Fac. Agric., Univ. Miyazaki<sup>5</sup>
- \* P-114 Day roost of Japanese long-eared bat, *Plecotus auritus sacrimontis* inhabiting in the forest  
\*Satoko Yoshikura<sup>1</sup>, Masumi Watanabe<sup>2</sup>, Takashi Kamijo<sup>1</sup>, Sachiko Yasui<sup>3</sup>  
Univ. Tsukuba<sup>1</sup>, Tokyo Univ. of Agri. and Tech.<sup>2</sup>, Tsukuba Ibaraki<sup>3</sup>
- \* P-115 Population trend of Orii's flying fox, *Pteropus dasymallus inopinatus*, on Okinawa-jima Island in the Ryukyu Archipelago  
\*Atsushi Nakamoto<sup>1</sup>, Akiko Sato<sup>1</sup>, Kazumitsu Kinjo<sup>2</sup>, Masako Izawa<sup>1</sup>  
University of the Ryukyus<sup>1</sup>, Okinawa International University<sup>2</sup>
- \* P-116 The effect of forest structure on the activity of insectivorous bats  
\*Dai Fukui<sup>1,2</sup>, Hirofumi Hirakawa<sup>1</sup>, David A. Hill<sup>3</sup>  
FFPRI<sup>1</sup>, JSPS Research Fellow<sup>2</sup>, Univ. Sussex<sup>3</sup>
- \* P-117 Bonin flying fox males exploit female warming clusters for mate guarding  
\*Norimasa Sugita<sup>1</sup>, Keisuke Ueda<sup>2</sup>  
Rikkyo Univ<sup>1</sup>, Rikkyo Univ.<sup>2</sup>
- \* P-118 Postnatal growth and vocal development in the Endo's pipistrelle (*Pipistrellus endoi Imaizumii*), in Mt. Garyu, Hiroshima Pref., Japan  
\*Yuuki Kawata<sup>1</sup>, Mari Ishida<sup>2</sup>, Sumiko Matsumura<sup>1</sup>  
Graduate School of Sci. and Engineering, Yamaguchi Univ.<sup>1</sup>, Graduate School of Sci. and Engineering, Yamaguchi Univ. & Akiyoshi-dai Mus. Nat. Hist.<sup>2</sup>
- P-120 Bats survey in the Shiretoko Peninsula, Hokkaido
